

Sprint #3 report
Project: Treehouse
Group: Treehouse
7/20/20

Actions to stop doing:

Didn't actually go through the profile page and login pages actually dynamically update the website.

Actions to start doing:

This is the last sprint so not much that can be done. There are some minor cosmetic changes but that's about it.

Actions to keep doing:

Scrum meetings are still important to keep in line with the group.

Work completed:

- Profile frontend now renders correctly
- Navbar looks updated
- Details page updated with Google map integration working properly
- Profile page looks updated
- Chat feature added (NOTE: chat not actually linked between two accounts so it doesn't really work)

Work not completed:

- Profile page and login page firebase doesn't actually update anything in the frontend (so it doesn't really do anything other than send to firebase but firebase doesn't do anything)
- No way to upload property listing (related to first point)
- "Gallery" feature in details page

Work completion rate:

Total number of user stories completed during the prior sprint: ~1

Total number of estimated ideal work hours completed during the prior sprint: 15 hours

During Sprint #2:

Total number of days during the prior sprint: 7 days

User stories/day: 0.14 user stories/day

Ideal work hours/day: 3 hours/day

All sprints to date:

Total number of days during the prior sprint: 21 days

User stories/day: 0.21 user stories/day

Ideal work hours/day: 3 hours/day

Sprint 3 burnup
