

Sprint #2 report
Project: Treehouse
Group: Treehouse
7/14/20

Actions to stop doing:

We decide to stop developing new features, since we haven't integrated all members' work together as a whole working project.

Actions to start doing:

We divided our work into two groups, for better integrating the different parts of the work. We started to try to set different parts of work as react components under the TA's suggestion, since this helps us integrate our work together.

Actions to keep doing:

We would keep our frequency of scrum meetings since it's essential for the team to understand our progress. We're currently meeting 3-4 times a week.

Work completed:

We built the landlord profile page that allows landlords to create and upload their profile information. (Sprint 2)

We built a navigation bar which navigates to different subpages.

Work not completed:

We haven't integrated all the code together as a whole working application yet. Users can create profiles but the profiles couldn't show in the front page. We haven't implemented the chatting feature yet. (Sprint 2)

Work completion rate:

Total number of user stories completed during the prior sprint: 1

Total number of estimated ideal work hours completed during the prior sprint: 15 hours

During Sprint #2:

Total number of days during the prior sprint: 7 days

User stories/day: 0.14 user stories/day

Ideal work hours/day: 3 hours/day

All sprints todate:

Total number of days during the prior sprint: 14 days

User stories/day: 0.21 user stories/day

Ideal work hours/day: 3 hours/day

Sprint #2 burnup:
