Working Prototype Know Problems Report
Product: Treehouse
Team: The Treehouse Group
July 22, 2020

List of Known Problems:
1. Home page hosted locally so much be hosted via port 1234 or web-based pages will not forward to home page
2. Landlord profile is not working with Firebase database and displays profiles on front end only
3. Renter profile works with the back end but does not display renters when accounts made
4. Login page not connected with landlord/renter profile
5. Chat feature not connected with login or landlord/renter profile
6. Homepage using local files to display property listings rather than actual backend
7. Zip Code filter on homepage not working
8. Invisible buttons on Left side of navigation bar do not work
9. Formatting issues on a few pages (misaligned text, etc)
